Requirements

1. Log in page requirements & login requirements.

1. The system **must** allow logging in using the user's work email.
2. The user **must** be registered in the system to be able to log in and access the system.

2. Registration page requirements & registration requirements.

1. A user **must** register using a link received via email by an already registered member.
2. A member of staff **must** be able to register only one account in the system.
3. The email address used for registering **should** be using the @makeitwork.co.uk domain.
4. The password used for registering **must** be at least 12 characters long and contain a combination of at least one uppercase letter, number and special character (!@#\$\$%^&*).
5. A user **must** input their First and Last name when registering.
6. A confirmation email **should** be sent out to the email address used for registration to check for a valid email.

3. User requirements

1. A user **must** be one of the following types: a normal user (employee), team leader or project manager.
2. A user **must** be able to be assigned to a team.
3. A user **should** be able to be part of multiple teams.
4. A user **should** be able to be part of no teams, but they will not have access to any projects.
5. A user **must** be able to be assigned to a Project.
6. A user **should** be able to work on multiple Projects (no limit on the amount).
7. A registered user **must** be able to invite another member of staff to join the system using their work email address.
8. A user **must** be able to create a private task for their private to-do list.
